### Product Summary

This is a premium 2-Module Ironridge solar racking kit featuring the iconic Ironridge system. All the hardware you need to mount your solar modules to your roof, or your DIY ground-mount design with the exception of sub-structure attachments. Choose from standard clear anodized, or aesthetic black.

### Product Description

This is a premium 2-Module Ironridge solar racking kit featuring the iconic Ironridge system. All the hardware you need to mount your solar modules to your roof, or your DIY ground-mount design with the exception of sub-structure attachments. Choose from standard clear anodized, or aesthetic black.

This is ideal for mounting 2 modules of 60-cell, 72-cell, 78-cell modules, and many others. The 84" rails are a great fit for modules up to 42" wide (which is almost all standard residential and commercial modules). Or a single module in landscape. Or mix & match smaller modules as needed.

#### Engineering Considerations

Ironridge XR100 rails are capable of up to 8' spans (2.4m) & 220km/h wind. As Canadians we appreciate a top-end load for a span of 4' with 50-70lbs/sq-ft of snow and 220km/h wind!

Refer to the attached spec sheet for all the key numbers.

In this particular 2-Module bundle, we have designed with 4 L-Feet, which results in a 4' span with 1.5' cantilevers on the ends. You are free to adjust the span and cantilevers as needed. You may also add additional L-Feet as needed for additional strength & support. See the links below to order additional Ironridge parts.

This 2-Module Ironridge Racking Kit Includes...

- 2x 84" XR100 Rails - 2x Pairs of rail end caps - 4x L-Feet (2 per rail) - 4x Bonding hardware for L-Feet - 4x Camo hidden module clamps (end clamps) - 2x UFO module mid clamps - 1x XR series grounding lugs - 4x Wire management clips for rails - 4x Wire management clips for module frames

Not Included...

Roof attachment footing or other footing for the L-Foot to anchor to.

Examples...

[RT-MINI](#)] : Surface attachment

[FlashFoot](#)] : Ironridge flashing attachment

[L-Mount](#)] : QuickMount PV attachment

[S-5!](#)] : Metal roof clamps

Let us know if you need assistance integrating this racking equipment into your system.
