Product Summary

The 21W rollable solar panel by P3 Solar is a reliable and portable solar power for mission critical electronic gear. Advanced CIGS thin film solar cell technology means more power in partial sun and shoulder seasons than crystalline panels.

Product Description

The 21W rollable solar panel by P3 Solar is a reliable and portable solar power for mission critical electronic gear. Advanced CIGS thin film solar cell technology means more power in partial sun and shoulder seasons than crystalline panels.

Great at high altitude camps, as well as Canadian latitudes.

The 21W Rollable Solar Charger provides a significant amount of solar energy for battery charging. At 40w/pounds, the 21W rollable is lightweight and compact rolling to a 5" diameter making it easy to transport and store. The 21W has built in bypass diodes so it's very shade tolerant!

Available in Coyote Brown or Black
