Product Summary

The Blue Sea 2356 provides secure water-resistant bussing for harsh environments. The single side nesting design allows for wire entry from one side to maximize space for a clean installation.

Product Description

The Blue Sea 2356 provides secure water-resistant bussing for harsh environments. The single side nesting design allows for wire entry from one side to maximize space for a clean installation.

2356 Water-Resistant 100A BusBar Features

- Water-resistant design with standard ring or fork type terminals allows for simple wiring with standard tools.
- Accepts a wide range of wire sizes - Includes 3 wire plugs to maintain water-resistant rating if less than 4 wires are used
- Nests with other Water-Resistant 100A Common BusBars and ST-Blade Water-Resistant Fuse Block for space saving wiring
- Ideal for positive distribution and for the collection of negative or AC ground circuits
- Insulating cover meets ABYC/USCG insulation requirements
- Tin-plated copper busses and fuse clips

2356 Water-Resistant 100A BusBar Specifications

- Maximum Voltage: 300V AC, 48V DC
- Continuous Rating: 100A AC or 100A DC
- Bus Material: Tin-Plated Copper C11000
- Mounting Holes: Accepts 1/4" (6mm) Screws
- Terminal Screws: 4 x #8-32
- Terminal Stud: 1 x #10-32
- Wire Size: (1) 8 AWG to 4 AWG - Input, (4) 16 AWG to 10 AWG - Load
- Dimensions: 5.40"L x 3.40"W x 2.00"H (with cover)

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: .3 kg
