### Product Summary

The 30W Clamshell Solar Panel by Sierra Wave is a handy solar charger that works with virtually any battery system via a standard barrel connector, or the included alligator clips. The built-in 7A solar charge controller ensures that your battery is properly charged. Easy to use, easy to store!

### Product Description

The 30W Clamshell Solar Panel by Sierra Wave is a handy solar charger that works with virtually any battery system via a standard barrel connector, or the included alligator clips. The built-in 7A solar charge controller ensures that your battery is properly charged. Easy to use, easy to store!

The Sierra Wave 30-Watt Solar Collector is a portable monocrystalline folding solar panel used to generate energy to power a variety of portable electronic devices. The panel will generate 30 watts of energy in peak sunshine. Use this power to directly charge a device or store the energy in an accessory battery storage device, such as the [Enerplex Power Centre](#)]. Up to 3 units may be chained together to create 90 watts of power (use the accessory Chaining Cable).

The 30W Clamshell Folding Solar Panel Kit Includes:

- Power Center charging cable - Barrel power adapter - Battery clamps - 7-Amp built-in Charge Controller prevents battery overcharge, over discharge, and load protection

Applications: Tools, work lights, vehicle batteries (trickle charge), laptops, camera equipment, and most battery systems.

Included Accessories

12V CLA Car Socket Outlet (SAE connector)

Alligator Clips (SAE connector)
