YETI PRO 4000 HIGHLIGHTS

🔌 BEST IN CLASS POWER OUTPUT

The Yeti PRO 4000 handles heavy-duty appliances with ease and powers more for longer thanks to its next-generation efficient inverter technology. It comes with 3,600 watt power out and 7,200 watt surge, and has 80% more power than our previous generation products. Run almost any home appliance, aside from air conditioning.

🔋 CLASS-LEADING LIFESPAN

Upgraded LiFePO4 battery technology gives this power station an incredible 4000+ cycle lifespan with over 10 years of daily use. This reliable power station is guaranteed with a 5 year warranty so you can count on it when you need it most.

⚙ SUPERIOR FAST CHARGING

The Yeti PRO 4000 offers over 3 times the charging speed of previous generation products. It has 1800 W AC power in to charge from 0% to 80% in 2 hours and 3,000 W solar input to charge from 0% to 80% in under 90 minutes while you're off grid.

UNRIVALED BUILD QUALITY

The Yeti PRO 4000 is the largest power station rated for portable outdoor use and was designed with safety and durability in mind. It meets the standards for UL2743 certifications and has an FCC Class B safety certification. It also has a battery management system with over 100 safety checkpoints per second.

EASY EXPANSION AND INTEGRATION

The Yeti PRO 4000 is designed for simple vehicle integration and home circuit integration so you can take it on the road in your RV or van, or backup as many as 10 circuits in your home. Get even more power by adding up to 4 Tank PRO 4000 expansion batteries for up to 20 kWh of power. You can also get indefinite renewable energy by pairing solar panels with your power station to create a solar generator.

Three Ways To Recharge Your Yeti PRO 4000

FROM THE SUN

Recharge from the sun by connecting a compatible solar panel. Charge time depend on the size of your solar panel.

FROM THE WALL

Your Yeti PRO 4000 can charge 0-100% in under 3 hours when plugged into the wall with the included power cable.

FROM THE CAR

You can charge your Yeti PRO 4000 from your car by plugging it into your 12 V adapter using the 12 V Aux to 8 mm Car Charging Cable. This will recharge your

Yeti PRO from 0-100% in about 37 hours.
