Product Summary

The Goal Zero 98370 is a Spade To SAE adaptor cable for making connections between a solar charge controller and a battery. Connecting this to your charge controller's output terminals provides you with an SAE connector which is a common connector used for battery charger accessory cables.

Product Description

The Goal Zero 98370 is a Spade To SAE adaptor cable for making connections between a solar charge controller and a battery. Connecting this to your charge controller's output terminals provides you with an SAE connector which is a common connector used for battery charger accessory cables.

Connect directly to a 12V battery using SAE to Ring or SAE to Alligator Clips.

Can also be used to connect SAE solar panels to terminal blocks or charge controllers.

This cable can be used with any manufacturer - not Goal Zero specific.

IMPORTANT NOTE:

Check the polarity of SAE plugs before connecting to ensure a safe, correct connection.

98370 General Specifications
