Product Summary

This Goal Zero 98725 adaptor cable is the way to get your smaller, or older Goal Zero solar panels connected to some of the new Yeti Power Stations. It has an 8mm Female barrel connection on one end, and Goal Zero's HPP connector (stacked

Anderson Powerpole) on the other. The HPP end can connect to newer Yeti power stations, or you can adapt the HPP (Anderson Powerpole) to another connector such as MC4.

Replaces the [Goal Zero 98059](#)]
