Product Description

Recharges the Voltaic V250, V88, or the older V72 & V60 battery packs from an AC power source (worldwide 110/240V). This charger is included with the V250, V88, V72 & V60 batteries, and all Voltaic solar backpacks & cases that come with these batteries.

Output: 18.5V DC, 2A ALSO CAN WORK WITH GOAL ZERO

Need a new AC wall charger for your Goal Zero Sherpa or Yeti which uses the 8mm barrel plug?

Goal Zero's [98058](#) has been discontinued, but you can use this Voltaic charger for the same purpose by adding the [Voltaic 'K' Connector Tip \(8mm\)](#). Put the tip on the end of the 5.5x2.5mm output barrel of this Voltaic wall charger, and plug it into your Goal Zero.
