Product Summary

The AGM-SENBOX is a simple solution for energy storage systems. The Sentinel Solar Battery Box is an enclosed battery rack designed for indoor use. Each modular enclosure will fit up to 8 batteries of the L-16 standard dimension (ie Surrette Rolls S6-460 AGM).

Product Description

The AGM-SENBOX is a simple solution for energy storage systems. The Sentinel Solar Battery Box is an enclosed battery rack designed for indoor use. Each modular enclosure will fit up to 8 batteries of the L-16 standard dimension (ie Surrette Rolls S6-460 AGM).

The optional [175A](#) or [250A](#) breakers can be located conveniently at the top of a single enclosure. The enclosure is assembled in a matter of minutes and is modular so that it can be stacked side-by-side.

AGM-SENBOX Key Features

Ships as flat pack for easy and cost effective shipping

Simple universal design assembles quickly

Optional 175A or 250A DC breakers available separately

Bus connections between batteries for both 24 and 48V configurations.
Clean compact design with the ability to stack side-by-side
DC breakers not included - source

AGM-SENBOX Mechanical Specifications

DEPTH (in.) : 19.12

WIDTH (in.) : 26.22

HEIGHT (in.) : 39.20

WEIGHT (no batteries) (lbs.) : 74

Lithium Battery Banks & Storage

The AGM-SENBOX is versatile, and can be used with just about any AGM or Lithium batteries you are selecting for your energy system. Most Lithium batteries can be oriented on their sides so the terminals can face the front when installed in cabinets. Check your battery dimensions, and plan your wiring & disconnect breaker needs.
