### Product Variants

- ATO/ATC Blade Fuses - 1A ( )
- ATO/ATC Blade Fuses - 3A ( )
- ATO/ATC Blade Fuses - 5A ( )
- ATO/ATC Blade Fuses - 7.5A ( )

- ATO/ATC Blade Fuses - 10A ( )
  
- ATO/ATC Blade Fuses - 15A ( )
  
- ATO/ATC Blade Fuses - 20A ( )
  
- ATO/ATC Blade Fuses - 25A ( )
  
- ATO/ATC Blade Fuses - 30A ( )
  
- ATO/ATC Blade Fuses - 40A ( )

## Product Summary

Yes, we carry the common, and very affordable ATO/ATC Blade Fuses. ATO/ATC blade fuses are standard size and the most common type of fuse for automotive and marine applications, but can be used in other electrical applications that require circuit protection.

## Product Description

We carry the common, and very affordable ATO/ATC Blade Fuses. ATO/ATC blade fuses are standard size and the most common type of fuse for automotive and marine applications, but can be used in other electrical applications that require circuit protection.

Commonly mounted in a [fuse block](#), [fuse holder](#) or [fuse panel](#).

Available in 1, 3, 5, 7.5, 10, 15, 20, 25, 40 amps.

ATO/ATC Blade Fuse Features

- Standard circuit protection for automobiles, trucks, RV's and boats - Fast acting type blade fuses for electronic devices - Available sizes: 1, 3, 5, 7.5, 10, 15, 20, 25, and 40 amps - 32V DC maximum voltage - Easy to read fuse amp rating value on each fuse - Meets or exceeds OEM and SAE standards

## Product Attributes

- Dimensions: 1 &times; 1 &times; 1 cm
- Weight: .2 kg
- Size: 1A, 3A, 5A, 7.5A, 10A, 15A, 20A, 25A, 30A, 40A
