Product Variants

- Autotransformer by Outback Power - PSX-240 ()
- Autotransformer by Outback Power - FW-X240 ()

Product Summary

PSX-240 Autotransformer & FW-X240 Autotransformer by Outback Power.
Transformers for providing 240V split-phase power.

Product Description

PSX-240 Autotransformer & FW-X240 Autotransformer by Outback Power.
Transformers for providing 240V split-phase power.

The **PSX-240** Autotransformer can be used for step-up, step-down, generator, and split-phase output balancing. Built-in two-pole 20 A AC breaker and cooling fan.

FW-X240 Autotransformer

The FW-X240 is a 4 kVA, 120/240 Vac, 60 Hz autotransformer with 25-amp dual-pole breaker for mounting inside of FW500 or FW1000 AC enclosures.

Complete product technical information is available on the Outback website.
