### Product Summary

The universal programmable Battery Guard (BG) prevents the excessive discharge of the battery (which would damage the battery) and protects electronic appliances against overvoltage.

### Product Description

The universal programmable Battery Guard (BG) prevents the excessive discharge of the battery (which would damage the battery) and protects electronic appliances against overvoltage.

The BG-60 battery guard has an “Automatic Board System Detection”; the BG automatically detects the battery voltage (12 or 24V). The BG-60 battery guard is capable of carrying 60A continuous load and 65A transient load. There is a choice

out of 10 on/off threshold voltage programs, for both 12V and 24V battery systems, which can be easily programmed.

Features...

Can be set to connect / disconnect at several different voltages with jumpers

Batteries last longer

Prevents damage to connected components

Prevents excessive voltage caused by faulty alternators or chargers

### **Specifications...**

Input

6-35 VDC

Output

6-35 VDC

Amps

60 Amps

Weight

0.4 (lbs)

Weight

0.18 (kg)

Dimensions

3.25 x 2.4 x 1.5 (in)

Dimensions

8.3 x 6 x 3.8 (cm)

Warranty

2 Years (Canada/US)

## Applications...

Marine

Automotive

Recreational
