### Product Summary

The CLI9-12 is a compact, powerful, deep cycle lithium iron phosphate (LiFePO<sub>4</sub>) battery. It has double the power, less than half the weight, & lasts years longer than its lead-acid counterparts. This unique lithium battery has a lot to offer, providing you with the power needed for a full-day fishing and other outdoor adventures.

### Product Description

The CLI9-12 is a compact, powerful, deep cycle lithium iron phosphate (LiFePO<sub>4</sub>) battery. It has double the power, less than half the weight, & lasts years longer than its lead-acid counterparts. This unique lithium battery has a lot to offer, providing you with the power needed for a full-day fishing and other outdoor adventures.

CLI9-12 Applications

- Solar Energy - Security Backup - Remote Power - HAM Radios - UPS Power Supplies - Emergency lights - Boating Electronics - Robotics - Camping - Fish Finders - Flashers - Ice Fishing - Scooters

The CLI9-12 lithium battery is maintenance-free, capable of ultra-fast charging and discharging while offering high

efficiency and long cycle life. CanBat's high-power lithium iron phosphate batteries can withstand up to 2500+ charge/discharge cycles at a depth of discharge of 100%. 12V LiFePO4 batteries have the longest shelf life and can be stored for up to two years in any state of charge without the worry of degradation. This makes them exceptional for use in seasonal equipment, such as those used in the fishing season, since they do for long periods of time.

Need more power? These 12V 9Ah lithium batteries can be connected in parallel to increase the overall amp-hour capacity and provide you a longer run time.

Canbat 12V 9Ah Lithium Iron Phosphate batteries (LiFePO4) are designed to outperform traditional sealed lead-acid batteries in various recreational, residential and commercial power applications. Canbat lithium batteries offer safe and worry-free energy at a lighter weight. Compared to sealed lead-acid batteries and other types of lithium batteries, Canbat lithium iron phosphate batteries are designed with LiFePO4 technology to offer significant advantages, including improved recharge and discharge efficiency, temperature protection, a higher life cycle and the ability to deep cycle or deep discharge while maintaining power. 12V 9Ah LiFePO4 batteries are generally more expensive than their sealed lead-acid counterparts, but they are actually more cost-effective in the long term because they offer an extended life span of over 10 years.

Canbat is the number one lithium battery Canada supplier and we are the only company offering free shipping across the country, regardless of quantity. Got a question? You can also contact us either by email or phone for customer support. Our lithium battery experts are here to help you with any technical questions you may have about our CLI9-12 model or any of our other LiFePO batteries.

#### CLI9-12 Lithium Battery Specs

Part Number: CLI9-12

Length: 151 mm (5.95 inches)

Width: 65 mm (2.56 inches)

Battery Height: 99 mm (3.90 inches)

Total Height (with terminal): 99 mm (3.90 inches)

Approx Weight: 1.15 kg (2.54 lbs)

Voltage: 12.8V

Amps Hours: 9Ah

Warranty : 10 Years

## Product Attributes

- Weight: 2.6 kg

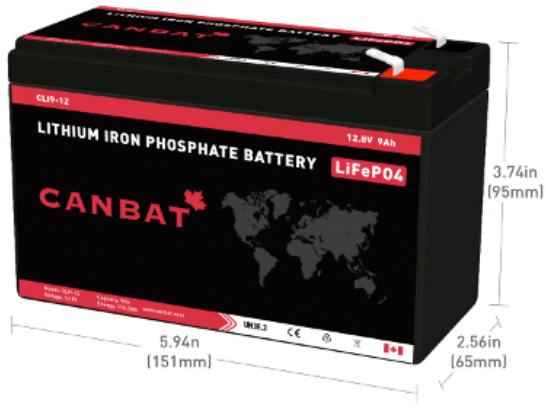

## Product Gallery

2.54 lbs

1.15 kg

Temperature Protection

Over-charge Protection

Over-discharge Protection

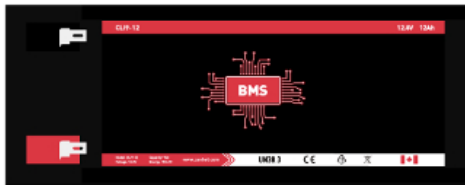

Over-current Protection

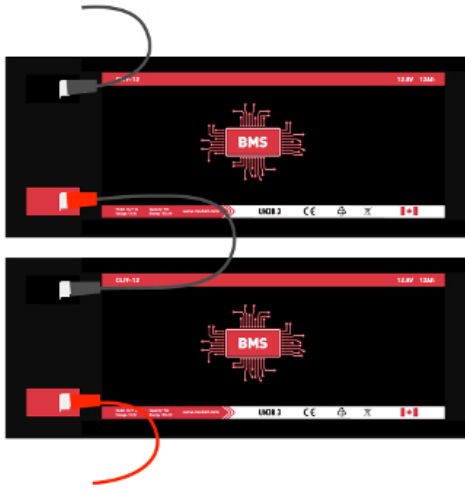

Single Cell Equalization

Short-circuit Protection

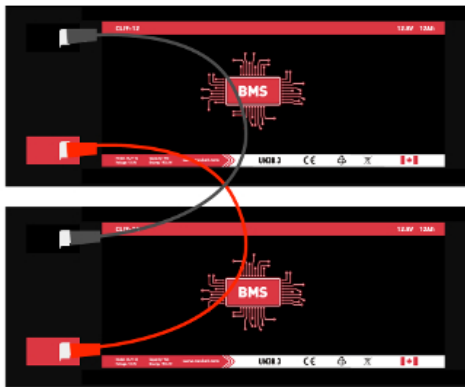

## SUPPORTS SERIES CONNECTIONS

Connect up to 4 batteries in series or parallel

## SUPPORTS PARALLEL CONNECTIONS

Connect up to 4 batteries in parallel or series
