Product Summary

Two USB ports, plus an extension 12V socket for your vehicle. With 2.4A of USB power, you can charge two smartphones, tablets, GPS receivers, or any other USB device, without losing your car's 12V power socket.

Product Description

Two USB ports, plus an extension 12V socket for your vehicle. With 2.4A of USB power, you can charge two smartphones, tablets, GPS receivers, or any other USB device, without losing your 12V power socket.

The DC LINK™ 2.4 can expand any vehicle cigarette lighter socket (12V or 24V) to

provide 2 additional USB power ports without losing the DC socket option. Now you can charge more than one mobile device at the same time to keep your cell phones, smartphones, tablets, and e-readers powered up on the road!

DC Link 2.4 Features

- 2 USB power ports and 1 DC socket

Compatible with most 12V or 24V appliances and USB devices including iPad tablets and e-readers. Got a super fussy iPhone or tablet? Get a [Smart USB Adaptor](#)] to go with this.

- Easy operation—simply plug in and use
- Extra-long cords
- LED power indicator

DC Link 2.4 Specifications

- DC Input: 12V/24V - DC Output: 12V/24V - USB Output: 5V, shared 2.4A total - Fuse Protection - Low-battery protection
