Product Summary

The EVO-RC-PLUS is an intelligent remote control designed specifically for use with the Samlex Evolution™ Series of Inverter/Chargers. View real-time activity on the alpha numeric LDC display with 4 rows of 20 character while the unit is operating: Output voltage, Frequency, Amps, Watts, Volt Amps, Power Factor, Battery Voltage, Battery Current, Solar Input Current and more.

Product Description

The EVO-RC-PLUS is an intelligent remote control designed specifically for use with the Samlex Evolution™ Series of Inverter/Chargers. View real-time activity on the alpha numeric LDC display with 4 rows of 20 character while the unit is operating: Output voltage, Frequency, Amps, Watts, Volt Amps, Power Factor, Battery Voltage, Battery Current, Solar Input Current and more.

Use the remote to program inverter and battery charging parameters. Save a parameter set on a removable 32GB SD Card (the SD card slot located on the remote face of the EVO-RC-PLUS). Transfer saved parameters to other EVO™ inverter/chargers or insert the SD card into a computer and make parameter adjustments there.

Data log historic power consumption, inverter functionality, battery charging activity, faults and all of the conditions leading up to them. Analyze trends for more efficient use of off-grid resources.

EVO-RC-PLUS Features

- Advanced features for programming various parameters and modes of operation
- 4 rows of 20 characters alpha numeric LCD display for messaging
- Robust metal enclosure
- SD card slot can manage a removable SD Card up to 32GB (SD Card not included)
- Includes 10M/33ft data cable

Weight: 0.3 kg

Dimensions: 6.3 x 4.5 x 1.4 in

Dimensions: 160 x 114.2 x 35.5 mm

Compatible with all Samlex EVO Series inverters

(i) F Series: [EVO-1212F](#), [EVO-1212F-HW](#), [EVO-1224F](#), [EVO-1224F-HW](#)]

(ii) 120V Models: [EVO-2212](#), [EVO-3012](#), [EVO-2224](#), [EVO-4024](#)]

3-Year Limited Warranty
