Product Summary

This is the fan replacement kit for Outback FX/VFX, FRX/VFXR, GS/Radian inverters. This kit is a replacement for the internal cooling fan for Outback FX/VFX, FXR/VFRX, and GS Series Inverter/Chargers. Kit includes: replacement fan, 2 sets of screws, allen/hex wrench, and instructions.

Product Description

This is the fan replacement kit for Outback FX/VFX, FRX/VFXR, GS/Radian inverters. This kit is a replacement for the internal cooling fan for Outback FX/VFX, FXR/VFRX, and GS Series Inverter/Chargers. Kit includes: replacement fan, 2 sets of screws, allen/hex wrench, and instructions.

Be sure to power down and disconnect all power sources from the inverter prior to replacement of internal parts. Once connections are turned off, verify with a voltmeter that NO voltage is present.
