Product Summary

Designed for rugged use and a must for expeditions, campsites and family travel. The First Need Base Camp water purifier is laboratory tested and field proven. Base Camp has a stainless steel housing and a double-action pump for more water with less work.

Product Description

Field-serviceable and easily maintained, the First Need Base Camp will serve you

and your group for many years. Most importantly, we don't make claims not tested by independent laboratories and field service. It is one reason our purifiers are the favourite of expeditions world-wide for over 30 years. Trust your health and safety to nothing less! Independently certified to meet EPA guide standard protocol for microbiological purifiers against bacteria, cysts, and viruses.
