Product Summary

The GEN2 Barrier Panel by SolaTrim is a critter guard solution that is incredibly easy to install, and looks great. GEN2 Barrier panels are 4' long, and 5.5" tall, so they fit the needs of most residential rooftop solar installations. The self-adhesive panels stick to your module frames easily... no rolls of mesh to cut & trim, and no

mounting hooks to deal with. Keep squirrels, pigeons, and other pests from building their homes under your array.

Product Description

The GEN2 Barrier Panel by SolaTrim is a critter guard solution that is incredibly easy to install, and looks great. GEN2 Barrier panels are 4' long, and 5.5" tall, so they fit the needs of most residential rooftop solar installations. The self-adhesive panels stick to your module frames easily... no rolls of mesh to cut & trim, and no mounting hooks to deal with. Keep squirrels, pigeons, and other pests from building their homes under your array.

GEN2 Barrier Panel Description

The SolaTrim Pest Abatement Barrier is an aesthetic, all-weather, long lasting Pest and Debris abatement system designed to limit environmental impact and pest intrusion to residential solar system arrays. SolaTrim™ specifically blocks pigeons and squirrels from getting under solar systems while allowing for air to circulate underneath the solar panels, maintaining a protected area between the roof surface and the bottom of the solar panels.

Modern Adhesive Technology now allows for permanent bonding without the use of rivets, screws or other mechanical fasteners. SolaTrim™ applied this remarkable “peel and stick” feature to our barrier panels, making it possible to attain “life of the system” protection with a single, simple installation process.

GEN2 Barrier Panel Features

Rust and Corrosion resistant 3003-H14 Aluminum panel

Black polyester coating for low-visibility, matching module backing

Backside primer coat (standard gray)

.025" Aluminum stock – stiffened by design to prevent barrier from bending or warping

Diamond stamping to allow for air-flow and temperature regularity

Acrylic foam tape backing for permanent adhesion to any module frame configuration

- PART#: ST-550

Product Attributes

- Dimensions: 124 × 16 × 16 cm
- Weight: 6.8 kg
