Product Summary

A powerful lantern, providing 250 lumens of light, plus a dimmable, directional lighting feature. Charge the Lighthouse 250 from USB, or use the built-in hand crank generator. You can also use stored power to charge your USB electronics.

Product Description

A powerful lantern, with features that make it ideal for both family camping and emergency preparation. The Goal Zero Lighthouse 250 provides 250 lumens of light

which is far beyond what other camping lanterns provide. It also has a dimmable, directional lighting feature.

Charge the Lighthouse 250 from USB, or use the built-in hand crank generator. You can also use stored power to charge your USB electronics.

Charging Your Lighthouse 250...

There are 3 ways to charge the Lighthouse lantern:

The Sun

The Lighthouse 250 can be charged by connecting a USB solar panel. The A 5Watt USB Solar Panel can charge the Lighthouse 250 in about 10 hours.

USB Source

The Lighthouse 250 Lantern can also be charged by being plugged into any USB power source.

Hand Crank

When you are really in a pinch, use the hand crank to get 10 mins of light for every 1 minute of cranking.

Run Times...

- One side lit: 48 hours (low), 12 hours (high), 5 hours (turbo) - Both sides lit: 24 hours (low), 6 hours (high), 2.5 hours (turbo) - Hand Crank: 2.2W (cranking at 120 RPM), 1 minute of crank = 10 minutes of light
