### Product Summary

The Nomad 7 is a high-efficiency portable solar panel that provides both 12V & 5V output for charging both 12V battery packs as well as 5V USB battery packs & all related devices. A pretty good trick when you are trying to do more with less!

### Product Description

The classic multi-function solar panel from Goal Zero.

The Nomad 7 provides 12V & USB output to handle all your mobile equipment. Note that in this version 2 of the Nomad 7, the power on the USB port has been boosted to 5 Watts!

Features...

- Collect power from the sun (5 watts USB, 7 Watts 12V) - Use solar power with USB or 12V devices - Solar charge cell phone is 1 to 2 hours - Protect devices with built-in pocket - Foldable rugged design - Weather resistant

#### What's in the Box:

1 X Nomad 7 Solar Panel

1 x 12V cigarette adapter

Nomad 7 Power for the minimalist on the go

The Nomad 7 delivers an ultra-compact yet powerful solar panel that enables you to charge your handheld devices directly from its USB and 12 Volt DC charging ports.

30% smaller than comparable panels and 14 times more powerful than closest competitor. Use with Guide 10 to power your devices when solar is not available.

Please Note: In order to get the best charge from the sun, open up the panel BEFORE plugging your device in.

#### Input Sources

7 watt mono-crystalline solar technology

#### Output Ports

##### USB output

5 Watts = 1000mA @ 5 volts

(6 Watts available when charging direct to Goal Zero Guide 10 battery pack)

##### DC output (CLA)

3 Wats = 250mA @ 12 volts

## Included Accessories

12V Male cigarette adapter
