Product Summary

An ultra-thin USB battery pack with binder holes so it fits in any ring binder. Ideal for students & field workers who need to keep their electronics charged. This is the version supplied with both a USB port, plus Apple Lightning connector.

Product Description

The Enerplex Jumpr Slate 5K Lightning Edition is an ultra-thin USB battery pack that handles smartphones, iPhones, tablets, and any other USB devices you have. With binder holes built into the chassis,

it fits in any ring binder. How thin is it? Just slightly wider than a USB port.

The rock-solid frame is incredibly strong for taking all the abuse of daily use.

The Enerplex Jumpr Slate 5K Lightning edition is ideal for students who need extra smartphone power, and field workers who need to keep their USB electronics charged. This is the Slate model that comes with both a universal USB port and tethered Apple Lightning connector.

Comes with tethered Apple Lightning connector for the fastest charging of

Apple iPhones & iPads

- Charges smartphones, tablets, cameras, GPS, MP3's and more via USB port.
- Pass-Through Charging (can be charged while it is charging other devices)
- Solar-ready - can be used with any USB solar panel
- Binder holes to easily place in folders and planners
- Red Dot Design Award Winner

Want to charge cameras? The best option is to use a [Universal USB camera charger](#) like the [Ansmann PL Vario](#). This will adapt to every camera battery size, and will handle 3.6/3.7V packs in addition to 7.2/7.4V packs.

Pass-Through Charging...

Here's a little feature that most USB battery pack companies don't talk about: Pass-Through charging. This is the ability of a battery pack like the Jumpr Slate 5K to charge other devices while it is being charged. That's right... you don't need to wait until your Jumpr has adequate power before plugging in your tablet. The Jumpr Slate 5K's advanced control circuitry will handle both for you.

All the battery packs that we sell have this feature, because they are designed to work with solar. But most big box store brands leave out this functionality for some lame reason.

Solar-Ready...

Want to extend the power you draw from the Slate 5K? Add a [USB solar panel!](#)

The Jumpr Slate 5K connects to your favourite USB solar panels, and can charge all

your devices while it soaks-up power from the sun.

EnerPlex Jumpr Slate 5K Lightning Specifications...

- Product Dimensions: 17 x 9.5 x 0.75cm / 6.69 x 3.74 x 0.3" - Battery Capacity: 5,100 mAh (= 1.5 iPhone/smartphone charges) - Battery Type: Lithium-Polymer - Recharge By: Micro-USB - Input: Micro-USB - Output: USB Port/Tethered Apple Lightning Connector - Power Output: 1A/2.4A
