Product Summary

The Kestrel 2500 takes the great features of an advanced wind gauge, and adds a barometric pressure sensor. A three-hour pressure trend indicator helps you predict fish and wildlife activity and know when the weather's going to turn nasty. With its easy-to-use digital pressure altimeter, you have the perfect instrument for any outdoor activity.

Product Description

The Kestrel 2500 takes the great features of an advanced wind gauge, and adds a barometric pressure sensor. A three-hour pressure trend indicator helps you predict fish and wildlife activity and know when the weather's going to turn nasty. With its easy-to-use digital pressure altimeter, you have the perfect instrument for any outdoor activity. In addition to predicting weather activity, barometric pressure also influences a bullet's trajectory, which is why the Kestrel 2500 is used by shooters and hunters when accuracy is important.

Kestrel 2500 Measures...

- Current Wind Speed
- Maximum Wind Gust
- Average Wind Speed
- Air, Water & Snow Temperature
- Wind Chill
- Barometric Pressure
- Altitude

Kestrel 2500 Features...
