### Product Summary

360W LG NeON R Prime Solar Module : LG360Q1K-V5. The very latest cell technology, with discreet panel bus wiring that enhances the aesthetics of the panel. An ideal choice for the discriminating home owner, and currently the highest

output 60-cell solar module.

## Product Description

360W LG NeON R Prime Solar Module : LG360Q1K-V5. The very latest cell technology, with discreet panel bus wiring that enhances the aesthetics of the panel. An ideal choice for the discriminating home owner, and currently the highest output 60-cell solar module.

LG NeON® R is new, more powerful product with global-leading performance. LG has applied a new cell structure without electrodes on the front, maximizes the utilization of light.

Price includes shipping within Canada

LG360Q1K-V5 360W LG NeON R Features...

Enhanced Performance Warranty

LG NeON® R has an enhanced performance warranty. Now set at 25-years, with expected service lifespan of 40+.

After 25 years, LG NeON® R is guaranteed at least 87.6% of initial performance.

### **High Power Output**

Compared with previous models, the LG NeON™ R has been designed to significantly enhance its output efficiency, thereby making it efficient even in limited space.

### **Aesthetic Roof**

LG NeON™ R has been designed with aesthetics in mind with no electrode wires on the front of the cells. The product may help increase the value of a property with its modern design.

### **Outstanding Durability**

With its newly reinforced frame design, LG NeON™ R can endure a front load up to 6000 Pa, and a rear load up to 5400 Pa.

### **Better Performance On A Sunny Day**

LG NeON™ R now performs better on sunny days thanks to its improved temperature efficiency.

LG360Q1K-V5 Solar Module Specifications

Cell Properties(Material / Type) : Monocrystalline / N-type

Cell Maker : LG

Cell Configuration : 60 Cells (6 x 10)

Module Dimensions(L x W x H) : 1,700mm x 1,016mm x 40mm

Weight : 17.5 kg

Maximum Power (Pmax) [W] : 360

MPP Voltage (Vmpp) [V] : 36.7

MPP Current (Impp) [A] : 9.82

Open Circuit Voltage (Voc,  $\pm 5\%$ ) [V] : 43.3

Short Circuit Current (Isc,  $\pm 5\%$ ) [A] : 10.50

Module Efficiency [%] : 20.8
