Product Summary

All the Liquid-Tight Cable Entry Glands & Strain Reliefs & wire cordgrips needed for most solar installation work can be found here. Use the 1/2" NPT threaded connectors to provide a waterproof entrance or exit for wiring on PV module junction boxes and outdoor combiner boxes. Use the 3/4" NPT connector for cables up to 5/8" (17mm) diameter. For reference, PV wire fits a 7mm hole.

Product Description

All the Liquid-Tight Cable Entry Glands & Strain Reliefs & wire cordgrips needed for most solar installation work can be found here. Use the 1/2" NPT threaded connectors to provide a waterproof entrance or exit for wiring on PV module junction boxes and outdoor combiner boxes. Use the 3/4" NPT connector for cables up to 5/8" (17mm) diameter. For reference, PV wire fits a 7mm hole.

Made of Nylon with Buna-N seals. Resistant to salt water, and most mild chemicals and oils, these strain reliefs are noncorrosive and suitable for direct-burial installations.
