Product Summary

Want a complete solar kit for your remote cabin or cottage, but want a DIY installation that's simple and straightforward? This is the place to start. Name brand equipment, at a bundle price.

The Matrix Magnum Off-Grid Solar Kit 4 comes complete with solar modules, pre-wired power board (charge controller, inverter, safety disconnects, and monitor), battery bank, and wiring. A wiring guide is provided to help you install, but we know that every installation is different, so we are here to help you get it done.

Product Description

Want a complete solar kit for your remote cabin or cottage, but want a DIY installation that's simple and straightforward? This is the place to start. Name brand equipment, at a bundle price.

The Matrix Magnum Off-Grid Solar Kit 4 comes complete with solar modules, pre-wired power board (charge controller, inverter, safety disconnects, and monitor), battery bank, and wiring. A wiring guide is provided to help you install, but we know that every installation is different, so we are here to help you get it done.

What's Included...

Solar modules : 4 x Matrix 300W

Charge Controller : Midnite Classic 150

Inverter : Magnum 4448PAE

Battery : 4 x Matrix Carbon AGM

Wiring : #10 PV Wire with MC4 connectors, heavy-duty battery interconnects

The inverter & charge controller mount onto a pre-wired power panel, which greatly reduces your installation time, and ensures code compliance.
