Product Summary

The smart way to build your own portable power solution. The Powerwerx

MEGAbx2 includes input & output ports to allow you to keep all your essential equipment running during an emergency, while out on field work, or camping with the family. Pick the battery capacity you want, drop it into the box and connect the terminals. With capacities of up to 720Wh, this box is an economical alternative to popular products like the Goal Zero Yeti 400 & Yeti [500X](#) & [1000X](#).

Product Description

The smart way to build your own portable power solution. The Powerwerx MEGAbx2 includes input & output ports to allow you to keep all your essential equipment running during an emergency, while out on field work, or camping with the family. Pick the battery capacity you want, drop it into the box and connect the terminals. With capacities of up to 720Wh, this box is an economical alternative to popular products like the Goal Zero Yeti 400 & Yeti [500X](#) & [1000X](#).

MEGAbx2 Applications: - Charging smartphones, tablets, radios and computers
- Powering two-way radios and DC powered electronics - Emergency and Off Grid portable power - Portable power for telescope accessories **MEGAbx2**

Features: - Bright safety orange colored box - Built-in White and Red LED worklight and emergency strobe with 6 user selectable modes - Designed for use with Bioenno battery packs, but adaptable to others **DC Power up to 40 amps total** - Main on/off 15A backlit circuit breaker switch to turn your devices on/off and stop parasitic loads - (1) USB Type-C QC4.0 up to 36W - (3) USB QC3.0 up to 18W each - Battery Capacity and Voltage Monitor - (1) Automotive 12V socket with cover (15A maximum) **High current DC outputs**

(non-switched): - (4) Anderson Powerpole connectors with cover - Heavy duty M6 binding posts accepts 1/4" ring terminals, banana plugs or bare wire - Battery is protected with an inline 40A ATO blade fuse

MEGAbx2 Specifications:

Available Bioenno LiFePO4 Battery Options:

BLF-1250A (50Ah), **BLF-1240A** (40Ah), **BLF-1230A** (30Ah), **BLF-1220A** (20Ah),

BLF-1215A (15Ah).

Can also be used with other batteries & AGM batteries - observe the necessary dimensions & connection terminals.

Battery Connection: SB50 Gray Anderson Connector and (with 40A inline fuse)

Maximum Peak Discharge: 40 Amps

Nominal Battery Voltage: 12VDC

Exterior Dimensions (including binding posts): 9.75 in. H x 9.125 in. W x 15.125 in. L (247.7 mm x 237.8 mm x 384.2 mm)

Maximum Interior Dimensions: 6.5 in. H x 6.375 in. W x 11.5 in. L (165.1 mm x 161.9 mm x 292.1 mm). Additional height and length are available in limited areas due to the shape of the lid and wire harnesses, up to 7.5 in. H (190.5 mm) and up to 12.5 in. L (317.5 mm).

Use these dimensions if you are considering other battery brands like **RELiON**

Need something a bit smaller & lower cost?

Take a look at the [PWRbox](#)] **TIP FOR COLD:**

Cold weather applications should line the box with an insulating foam &/or space blanket material. Consider the [RELiON LT series batteries](#)] which warm themselves prior to accepting a charge.

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: 2 kg
