Product Summary

The Merlin 15 is an ultra-lightweight, rugged 3350mAh power pack for charging smartphones, action cameras, SAT phones, and other 5V devices. The smart charging technology detects when devices are connected, disconnected, or fully charged. Featuring an integrated 100 Lumens torch with SOS settings, the Merlin 15 is waterproof & dust-proof to IP65 Rating.

Product Description

The Merlin 15 is an ultra-lightweight, rugged 3350mAh power pack for charging smartphones, action cameras, SAT phones, and other 5V devices. The smart charging technology detects when devices are connected, disconnected, or fully charged. Featuring an integrated 100 Lumens torch with SOS settings, the Merlin 15 is waterproof & dust-proof to IP65 Rating.

The Merlin 15 is a tough power pack made from rugged materials. It is dust-proof and waterproof to IP65 rating which means it offers full protection against dust and other particles tested against a continuous airflow and can withstand low-pressure water jets directed from any angle.

Featuring smart charging technology which detects when devices are connected, disconnected or fully charged, the Merlin 15 is capable of charging a plethora of 5V devices including smartphones, GPS, action cameras & more, whilst the integrated 100 Lumen torch also has an SOS setting – perfect for emergencies.

What can the Merlin 15 recharge?

Smartphone - 1 to 2 times

Sat Phone - 1 time

GPS - 1 to 2 times

Action Camera - 2 to 3 times

Smartwatch - 14 to 15 times

Headlamp - 1 to 5 times

Merlin 15 Specifications

- Power pack with 3350mAh/12.06Wh
- 1x USB-C input/output: 5V/1.5A Max
- 1x USB output: 5V/1.5A
- Integrated 100 Lumens torch with SOS settings
- 4 LED battery charge indicator
- Waterproof and dustproof to IP65 rating
- Rugged design
- Weight: 100g

- Size: 107mm x 28mm x 38mm

Who Is Powertraveller?

Powertraveller has been on the portable solar equipment scene in Europe since 2003.

Powertraveller products are built to last, are capable of being used in extremes of temperature and are resistant to the elements and harsh handling. They have a very high number of recharge cycles negating the need for using disposable batteries and are made using components and materials that can be reused or recycled.

Powertraveller is on a mission to enable our customers to enjoy nature on their own terms with the help of lightweight, portable power sources. Technology helps us get the most out of the time we spend outdoors: It keeps us connected with our loved ones and fellow adventurers, lets us capture unforgettable moments and charges critical devices in the field.

Yet a relaxing weekend in the fresh air can quickly turn into a frustrating or even dangerous situation when a device is low on power. So, for more than fifteen years, Powertraveller has been designing, developing and manufacturing award-winning portable power and solar solutions that extend the usability of a wide range of electronics.

Powertraveller History...

2003: Powertraveller founded in Europe

2006: Powertraveller products used by scientific research groups in Antarctica who require charging at below 30°F

2008: Launch of military tactical line
