Product Summary

Outback FLEXPower Radian FPR-4048A fully pre-wired 4kW inverter system. This pre-assembled and pre-wired power system takes the concept of fast, easy installation to a new level of performance, value and flexibility with the FLEXpower Radian inverter at its core.

Product Description

Outback FLEXPowerr Radian FPR-4048A fully pre-wired 4kW inverter system. This pre-assembled and pre-wired power system takes the concept of fast, easy installation to a new level of performance, value and flexibility with the FLEXPowerr Radian inverter at its core.

Everything needed, outside of power sources and battery backup, is completely integrated—just install the mounting bracket, hang the system on a wall, make the necessary connections and the system is fully operational.

The FPR-4048A incorporates OutBack's GridZero technology, a superior level of intelligence in energy management for self-generation and self-consumption programs. It provides precise balancing between using stored energy, solar and utility power, blending-in the latter to overcome surges and load spikes. An Advanced Battery Charging (ABC) profile option to support leading-edge battery technologies such as Lithium-ion and others, and enhanced diagnostics for improved performance.

Outback FPR-4048A Inverter System Highlights...

- ☐ Factory Tested, Pre-wired and Pre-Configured System
- ☐ Fast installation with Pre-Assembled System and Fully integrated GS Load Center
- ☐ GridZero Technology Minimizes grid dependence
- ☐ All Components Carry Necessary ETL Certifications

Pre-Wired & Pre-Configured System Components...

Inverter : Outback Radian GS4048A

Load Centre : GSLC175-PV1-120/240

Inverter Bypass : 120/240VAC

Inverter OCPD : 175A

PV Array OCPD : 80A

GFDI : Yes

RTS : Yes

PV Charge Control : 1x [FLEXMax 80](#)

FPR-8048A Specifications...

Dimensions (inches/cm) : 47.0 x 33.5 x 9.84 / 119.4 x 85.1 x 24.9

Weight (lbs/Kg) : 195 / 88.5
