Product Summary

This is the Powerwerx PanelPole Anderson Powerpole port with weather-tight cover. Easily add Powerpole outputs to your dashboard, go-box, panel or chassis mount. Weather tight rubber cover protects connectors when not in use.

Product Description

This is the Powerwerx PanelPole Anderson Powerpole port with weather-tight cover. Easily add Powerpole outputs to your dashboard, go-box, panel or chassis mount. Weather tight rubber cover protects connectors when not in use. High output capacity of up to 45A on each Powerpole. Includes (2) 30A contacts for 12-14 AWG wire. Fits 1-1/8" dia. hole. User removable retaining pin allows for changing Powerpole connectors to different colours if needed.

PanelPole Features...

High Output Panel Mount

Includes (1) Anderson Powerpole connector, rated up to 30 amps continuous operation. Optional 261G2-LPBK contacts allow operation up to 45 amps with 10 AWG wire size.

Protective Weather Tight Cover

Included weather tight protective cover which seals front mounted Powerpole connectors when not in use.

Anderson Powerpole Connectors

Compatible and designed to work with your favorite Anderson Powerpole 15, 30 &

45 amp connectors.

Standard Mounting Hole

1-1/8" standard panel mounting hole compatible. Ideal for go-box, dashboard or chassis mounting.
