Product Summary

One of the best options for portable solar. A great solar option for cabins, RVs, trailers, and vans when you'd rather not mount solar to your roof, or have run out of space. Just take this solar panel out of its protective case, unlatch the handle to open it, fold out the kick stand, and plug it into your system. Unlike fabric & poly-backed models, the MEGA 200 Briefcase is built with strong aluminum frame and solar glass facing, so it can be left outside in all weather without worry.

Product Description

One of the best options for portable solar. A great solar option for cabins, RVs, trailers, and vans when you'd rather not mount solar to your roof, or have run out of space. Just take this solar panel out of its protective case, unlatch the handle to open it, fold out the kick stand, and plug it into your system. Unlike fabric & poly-backed models, the MEGA 200 Briefcase is built with strong aluminum frame and solar glass facing, so it can be left outside in all weather without worry.

Use the MEGA 200W Briefcase Solar to Charge Portable Power Stations & Solar Generators

There are many portable power stations and solar generators on the market today, but finding a quality solar panel to charge them is not always easy. Most lightweight folding panels are not able to handle wet weather, while full-size residential modules are simply too large to transport easily.

Use the MEGA 200W Briefcase with any power station that allows at least 200W of solar input or up to 15A of current.

This includes the following...

Goal Zero Yeti 4000 PRO

Goal Zero Yeti 700

Plus several models from EcoFlow, Bluetti, and others.

An advantage for the MEGA 200 is the fact that it does not include a solar charge controller. This means you can wire it like you would any standard solar panel, using your choice of charge controller.

MEGA 200W Briefcase Solar Features

- 200-watts of peak power - Kickstand for better angle placement - Corner bumpers provide frame protection - Strong tempered glass and aluminum frame - Fully weatherproof - High efficiency monocrystalline solar cells

The MEGA 200 Briefcase Solar Panel Is Ideal For...

- Solar generators - Portable power stations - Emergency backup or remote power - Cabins - Cottages - RVs - Trailers - Vans

MEGA 200 Specifications In Brief

- Model : RS-X200B - Maximum Power(Pmax): 200W - Maximum Power Voltage(Vmp): 18.6V - Maximum Power Current(Imp): 10.8A - Open Circuit Voltage(Voc): 22.8V - Short Circuit Current(Isc): 11.2A - Maximum System Voltage(Vmax): 1000V DC - Weight: 16.73kg / 36.8 lbs - Dimensions(folded): 93 x 72.4 x 7.1cm / 36.6 x 28.5 x 2.8 in - Dimensions(unfolded): 141.5 x 93 x 3.55cm / 55.7 x 36.6 x 1.4 in

Connectors : **MC4** - Charge Controller: NONE
