Product Summary

This is the S-5! SolarFoot mount for Trapezoidal exposed fastener metal roofs. This type of roofing material is found everywhere, and the SolarFoot solves the problem of needing to bridge embossed sections of the roof sheeting, while being able to secure to either decking or purlins on the underside. The SolarFoot comes with integrated butyl pads, (4) 8mm mounting holes, and a (1) M8-1.25 X 17mm Threaded Stud with Flange Nut for direct L-Footer mounting.

Product Description

This is the S-5! SolarFoot mount for Trapezoidal exposed fastener metal roofs. This type of roofing material is found everywhere, and the SolarFoot solves the problem of needing to bridge embossed sections of the roof sheeting, while being able to secure to either decking or purlins on the underside. The SolarFoot comes with integrated butyl pads, (4) 8mm mounting holes, and a (1) M8-1.25 X 17mm Threaded Stud with Flange Nut for direct L-Foot mounting.

Fasteners not included, but [we recommend these](#)].

What is the SolarFoot?

The **S-5! SolarFoot** is a simple, cost-effective pedestal for L-Foot attachment of rail-mounted solar PV. The bracket can be used to mount any L-foot to exposed-fastened metal roofs, such as AG-panel or R-Panel.

Designed to straddle minor striations in your roof panel for attachment into decking or structure, **SolarFoot** can be fastened into a variety of substrates, including the wood deck, wood timber purlins or steel purlins.

SolarFoot Benefits

Designed for exposed-fastened metal roof solar mounting attached via L-Foot and rails - Compatible with all rail manufacturer's L-Foot components - Attaches directly to structure or deck for optimal holding strength - Proper sealant selection never left to chance; no messy or risky field application of sealant - Low centre of gravity reduces moment arm commonly associated with L-Foot/rail solar racking - Stainless integrated stud and serrated, hex-flange nut secure the L-Foot into position

Solarfoot Features

- Manufactured in the U.S.A. from certified raw material - Fabricated S-5's 9001:2015 certified factory - All aluminum and stainless components - 25yr limited warranty - Compatible with all commercial L-Foot products on the market - Factory applied 40-year isobutylene/ isoprene crosslink polymer

sealant for reliable weathertightness - Sealant reservoir to prevent overcompression of sealant - Load-to-failure tested Normal to Seam by a nationally accredited laboratory on numerous metal roof materials and substrates - Four points of attachment into structure or deck with tested holding strength for engineered applications **Integrated M8-1.25x17mm stud and M8-1.25 stainless steel hex flange nut included** **Download the spec sheet here** **Download the installation guide here**
