Product Summary

The S-5-U Mini Metal Roof Attachment Clamp is by far S-5!'s most popular and most versatile clamp. It fits about 85% of the standing seam profiles manufactured in North America—including most structural and architectural profiles.

Product Description

The S-5-U Mini Metal Roof Attachment Clamp is by far S-5!'s most popular and most versatile clamp. The S5U Mini fits about 85% of the standing seam profiles

manufactured in North America—including most structural and architectural profiles. It can be used on vertically oriented seams and, by rotating the clamp 90 degrees, it can also be used on most horizontal 2" seam profiles.

Its simple design, generous dimensioning, and multiple hole orientations are what make the S-5-U Mini clamp so versatile. Installation is as simple as setting the specially patented round-point setscrews into the clamp, placing the clamp on the seam, and tightening them to the specified tension. Then, affix ancillary items using the bolt provided with the product.

S-5-U Mini Specifications

Accommodates **most standing seam profiles** in North and South America, including structural and architectural profiles

Use on **vertically-oriented seams**, OR

Rotate clamp 90° and use on **most horizontal seam profiles** w/ horizontal projection ≥ 0.65 " (16.5 mm)

Use for **light and medium-duty** applications, such as utility mounting and solar PV

- Smaller than the standard S-5-U **One T-30 Torx round-point setscrew (Torx bit tip provided)**

No M8 bolt included - [order them here](#)
