Product Summary

S12-230AGM 12V, 230Ah AGM VRLA Deep Cycle Battery by Rolls (Surrette Battery of Canada). Rolls by Surrette's sealed AGM batteries feature a high cycle life without the need for maintenance.

Product Description

S12-230AGM 12V, 230Ah AGM VRLA Deep Cycle Battery by Rolls (Surrette Battery of Canada). Rolls by Surrette's sealed AGM batteries feature a high cycle life

without the need for maintenance.

AGM technology (Absorbed Glass Mat) keeps the electrolyte contained in a glass-fibre material, which enables ion flows and eliminates gassing while charging. AGM batteries are non-hazardous, resulting in lower shipping costs and they can also be shipped via air. AGM batteries have a very low self-discharge rate, and can handle higher charge currents vs. regular flooded lead-acid batteries. Sealed AGM batteries can be placed anywhere without having to worry about fumes. They are also somewhat more suitable for cold places as they are more frost-proof than regular flooded lead-acid batteries.

The Rolls AGM line of batteries are designed for a variety of maintenance free applications and come with a 7 year warranty (changing to 3-years starting January 2019).

Rolls S12-230AGM Specifications

Battery Voltage : 12 Volt

Amp-hour Capacity (20-hour) : 210 Ah

Dimensions (WxDxH) : 53.0 x 20.9 x 23.9cm

Weight : 60.5 kg (133 lbs)
