Product Summary

Samlex's hugely reliable 12V battery charger, designed for automotive, marine, and back-up power systems. The BP-1210 uses a 3-stage algorithm to keep your battery bank investment healthy.

Product Description

Samlex's hugely reliable 12V battery charger, designed for automotive, marine, and back-up power systems. The BP-1210 uses a 3-stage algorithm to keep your battery bank investment healthy.

The BP-1210 3-stage battery charger is microprocessor controlled for fast, accurate, and reliable charging for all deep cycle batteries. A universal AC input with power factor correction enables full charging at 120/230 VAC and 50/60 Hz. A wide temperature range of operation and over 340,000 hour Mean Time Between Failure rating assures a long life.

Multi-color LED indicator displays charging status.

Samlex BP-1210 Features...

Universal AC input power with Power Factor Correction

High performance 3 stage charging

Easy to read LED's for system status

Advanced microprocessor controlled

Fully automatic operation

Reverse Polarity, Short Circuit, Over-load and ignition protection

Light weight and compact

Samlex BP-1210 Specifications...

Weight

2.2 (lbs)

Weight

1 (kg)

Dimensions

8.26 x 3.34 x 1.96 (in)

Dimensions

210 x 85 x 50 (mm)

Applications...

Automotive

Recreational vehicles

Marine

Communications sites

Battery back-up systems
