### Product Summary

The Sengled Everbright Backup Battery LED Bulb is here.

Ever wanted to have back-up lighting in the event of emergency without having to drag out a camping lantern? Want to use a standard light fixture you already have in your house instead of waving flashlights around? This is your solution.

## Product Description

The Sengled Everbright Backup Battery LED Bulb is here.

Ever wanted to have back-up lighting in the event of emergency without having to drag out a camping lantern? Want to use a standard light fixture you already have in your house instead of waving flashlights around? This is your solution.

Get on-demand backup lighting without an emergency light fixture. The A19 bulb automatically switches to backup mode when the power goes out and provides 3.5 hours of continuous use at 60% brightness.

### **Power Out. Light On.**

Everbright automatically switches on when the power goes out but can be turned on and off as normal during a power outage so you can use it when necessary or save it for later. Damp-rated for use in any room of the house including living rooms, bathrooms and hallways.

### **How It Works**

Installation - Twist your bulb in and turn your light fixture on/off as normal. You can also unplug from a power source.

Smart circuit rescue - When a power outage is detected, Everbright uses its internal battery for backup power.

Rechargeable battery - It provides up to 3.5 hours of light (60% brightness) & takes 6 hours to recharge.

### **Features**

Rechargeable Battery - Provides up to 3.5 hours of light with lithium-ion backup battery.

Blackout Proof - Turn bulb on and off as you wish during a power outage.

Weather Resistant - Damp-rated for any room of the house.

Energy Efficient - Uses 11.5W power consumption while turned on.

### **Smart Lighting When You Need It.**

Everbright has a built-in rechargeable lithium-ion battery that provides up to 3.5 hours of light and automatically switches on during a power outage. Never compromise on convenience and safety again.
