Product Variants

- Slotted L-Foot by Ironridge - Mill/Silver ()
- Slotted L-Foot by Ironridge - Black ()

Product Summary

The IronRidge slotted L-foot is engineered for roof mounting applications using the XR10, XR100 or XR1000 rails, but can also be used with other rails & attachments. Vertical slots allow for easily dropping in rails and provide adjustability to account for roof irregularities.

IronRidge L-feet are manufactured using 6000 series (heavy-duty) aluminum.

Product Description

The IronRidge slotted L-foot is engineered for roof mounting applications using the XR10, XR100 or XR1000 rails, but can also be used with other rails & attachments. Vertical slots allow for easily dropping in rails and provide adjustability to account for roof irregularities.

IronRidge L-feet are manufactured using 6000 series (heavy-duty) aluminum.

****NOTE:** Hardware for connecting to rails is sold separately.

For Ironridge Rails, choose between the following...

[Square Bonding hardware](#)] [T-Bolt Bonding hardware](#)]
