### Product Variants

- SunSaver 10 Solar Charge Controller by Morningstar - SS-10-12V ()
- SunSaver 10 Solar Charge Controller by Morningstar - SS-10L-12V ()
- SunSaver 10 Solar Charge Controller by Morningstar - SS10L-24V ()

## Product Summary

This third generation SunSaver 10 brings over two decades of advances in software and electronics to the same rugged, hardened design that made the original famous. Since the introduction in 1996, more than 1.5 million SunSaver Controllers have set the standard for reliability and performance in demanding oilfield and mining installations in nearly 90 countries around the globe.

## Product Description

This third generation SunSaver 10 brings over two decades of advances in software and electronics to the same rugged, hardened design that made the original famous. Since the introduction in 1996, more than 1.5 million SunSaver Controllers have set the standard for reliability and performance in demanding oilfield and mining installations in nearly 90 countries around the globe. Today, SunSaver is the world's leading small solar controller for industrial and consumer markets, proven in mission critical applications where failure is simply not an option.

Choose from the standard 12V unit with temperature compensation, or add a low voltage disconnect. The 24V model offers both temperature compensation & low voltage disconnect. You also have the option of having any model pre-wired with waterproof Powerfilm solar panel connectors.

Morningstar's SunSaver™ is the world's leading small solar controller for both professional and consumer applications including standard features and capabilities not found in any other small PV controller.

### Sunsaver 10 Key Features and Benefits

- 100% solid state
- Series design (not shunt)
- True 0 to 100% PWM duty cycle
- Setpoint accuracy 12V: +/-25mV
- Fully encapsulated in epoxy potting
- Marine rated terminals / anodized case

- Temperature compensation
- Sealed / Flooded battery select
- Parallel for 40 amps or more

5-year warranty
