Product Variants

- SunSaver 20 Solar Charge Controller by Morningstar - 12V ()
- SunSaver 20 Solar Charge Controller by Morningstar - 24V ()

Product Summary

The MorningStar SunSaver 20 solar charge controller. The world's leading small system solar regulator. The SunSaver 20 comes standard with temperature compensation & low voltage disconnect. Choose either 12V or 24V.

Product Description

The MorningStar SunSaver 20 solar charge controller. The world's leading small system solar regulator. The SunSaver 20 comes standard with temperature compensation & low voltage disconnect. Choose either 12V or 24V. You also have the option of having any model pre-wired with waterproof Powerfilm solar panel connectors.

Morningstar's SunSaver™ is the world's leading small solar controller for both professional and consumer applications including standard features and capabilities not found in any other small PV controller.

Key Features and Benefits

- 100% solid state
- Series design (not shunt)
- True 0 to 100% PWM duty cycle
- Setpoint accuracy 12V: +/-25mV
- Fully encapsulated in epoxy potting
- Marine rated terminals / anodized case
- Temperature compensation
- Sealed / Flooded battery select
- Parallel for 40 amps or more

5-year warranty

Models:

SSL-20L-12V (TC/LVD)

SSL-20L-24V (TC/LVD)

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: 0.6 kg
- Battery Voltage: 12V, 24V
