Product Variants

- SunSaver 6 Solar Charge Controller by Morningstar - Basic ()
- SunSaver 6 Solar Charge Controller by Morningstar - With LVD ()

Product Summary

The MorningStar SunSaver 6 solar charge controller. The world's leading small

system solar regulator with robust construction, and ultra-reliable PWM battery charging control.

Product Description

The SunSaver 6 solar charge controller by Morningstar. The world's leading small system solar regulator with robust construction, and ultra-reliable PWM battery charging control.

SunSaver 6 Options...

1. Standard Model
2. Standard model with temperature compensation
3. Advanced model with temperature compensation & low-voltage-disconnect

You also have the option of choosing to have your SunSaver shipped pre-wired with Powerfilm connectors for simple connection into your Powerfilm solar power system.

Morningstar's SunSaver™ is the world's leading small solar controller for both professional and consumer applications including standard features and capabilities not found in any other small PV controller.

SunSaver 6 Key Features and Benefits

- 100% solid state - Series design (not shunt) - True 0 to 100% PWM duty cycle
- Setpoint accuracy 12V: +/-25mV - Fully encapsulated in epoxy potting - Marine rated terminals / anodized case - Temperature compensation - Sealed / Flooded battery select - Parallel for 40 amps or more - 5-year warranty

Model SS-6-12V & SS-6-12V-L

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: 0.3 kg
- Model: Basic, With LVD
