Product Summary

The Swift 40 houses an impressive 10,000mAh battery that is capable of charging most 5v electronic devices, a process made even simpler by using the integrated Micro-USB and lightning cables as well as a bi-directional USB C port for plugging in

your own cables and charging devices that use other USB connectors.

Product Description

The Swift 40 by Powertraveller houses an impressive 10,000mAh battery that is capable of charging most 5v electronic devices, a process made even simpler by using the integrated Micro-USB and lightning cables as well as a bi-directional USB C port for plugging in your own cables and charging devices that use other USB connectors.

Weighing in at a minimal 285g, the Swift 40 will comfortably fit in your pocket or pack and will be easy to throw in for those longer days where your devices might need a power top-up. The 5 LED battery indicator will give you an immediate idea of the charge left in the Swift, great for checking how much juice you have to top up your devices with.
