Product Summary

The Goal Zero 98067 USB-C Adventure Cable is a tough little cable made for shorter charging cord needs. Standard USB-A male connector on one end, and the USB-C type connector on the other.

Product Description

The Goal Zero 98067 USB-C Adventure Cable is a tough little cable made for shorter charging cord needs. Standard USB-A male connector on one end, and the USB-C type connector on the other. Works with all USB-C devices to charge from a standard USB port. This is a Goal Zero cable, and therefore a little tougher than the cables you'll find at your local tech store.

PORTS

Input: USB

Output: USB-C
