Product Summary

This USB GoPro Hero 3/3+ Charger will charge 2 of your GoPro Hero 3/3+ camera batteries from any USB port including USB solar chargers and battery packs. Fast charging with up to 750mA output into each camera battery. MicroUSB charging cable included.

Product Description

This USB GoPro Hero 3/3+ Charger will charge 2 of your GoPro Hero 3/3+ camera batteries from any USB port including USB solar chargers and battery packs. Fast charging with up to 750mA output into each camera battery. MicroUSB charging

cable included.

Unlike the GoPro Hero 3 charger that came with your GoPro camera, this generic USB charger offers far more versatility for people on the go. This USB GoPro Hero 3/3+ Charger is small & light, and easy to pack along - it's smaller than a stack or business cards, and weighs next to nothing.

GoPro Compatibility... GoPro: Hero 3, Hero 3+

Using Generic Chargers with GoPro-branded batteries...

This charger will charge GoPro Hero 3 batteries, and 3rd party battery packs.

Depending on your camera body, the battery status information may or may not get updated (GoPro-branded functionality).

Using with solar

Simply plug the charger's USB cable into any USB solar panel & place the panel in sunlight. Note that for solar-direct use, a panel of 5 watts or more is recommended for reasonable charging times.

Don't want to be at the mercy of the sun? Simply put a battery pack between the solar panel & this charger. Using an intermediate solar storage battery pack will capture & store more of the solar power and allow the charger to operate at full speed whenever you need to use it... day or night.
