This is the same battery included with the Voltaic Spark solar tablet case.
Charges from any USB solar panel or any USB port. Yes: fully Apple compatible

Output: 5.5V, 600 mA and 5V, 2A (two output ports) **Input:** 5-12V, up to 2A **Maximum Output Power:** 10 Watts
Output Capacity: 11,600 mAh **Charge Time:** From 8 Watts solar in 10 hours direct sun, 2A USB Port 5-6 hours
Battery Type: Lithium Polymer **Protection:** Short Circuit, Over Charge, Over Discharge, Over Current, Over Temperature
Weight: 10.5 Oz (300g) **Dimensions:** 4" x 4 1/4" x 3/4" (104 x 107 x 19 mm) **Charge Display:** LEDs light sequentially when charging . **Capacity Display:** 1 light < 25%, 2 lights < 50%, 3 lights < 75%, 4 lights > 75% full

Useful Tips

Charge tablets from high-power port, phones and other devices from low-power port. Turn the battery on before charging your device by holding the power button down for a few seconds. Many tablets and most cell phones, iPods, MP3 players charge at 5-5.5V. The power requirement for a particular device is typically indicated in the product literature, on the device itself, or on the charger (as power output).

This is a partial list of devices that can be charged. If you have a question about compatibility with your device or expected charge times, please email us.
