Product Description

Trust Goal Zero to make a battery as tough as this one. The Venture 75 packs 75Wh of energy for all your USB devices, in an IP67 dustproof/waterproof casing. The USB-C port is designed to speed up charging and streamline cable carry. Power up tablets, laptops, and other USB-C devices using the 60W USB-C Power Delivery port, then use the same port to quickly recharge the power bank in 1.5 hours. Ideal for outdoor recreation, travel, and emergency use.

Venture 75 Features...

IP67 rating

Ensures protection against dust, sand and debris, and can withstand submersion up to 1 meter of water for at least 30 minutes

New 60W USB-C Power Delivery port

Provides high-speed charging in and out

Fresh design

Features a protective rubber sleeve and a waterproof plug that protects your ports against the elements when not in use

Integrated 50 lumens emergency flashlight

Lights up trails or hallways in a pinch

Charging the Venture 75

The Venture 75 can be recharged from a USB-C power delivery source in as little as 1.5 hours.

Recharge the Venture 75 from the sun by connecting a compatible solar panel in about 6 hours.

We recommend the **Nomad 50** or [Nomad 20](#)] for the best charging experience.

Powering Your Devices

The Venture 75 is great for all of your USB powered devices.

With just the onboard energy reserve, you have the following capability...

- Smartphone: 5 Recharges - POV Camera: 14 Recharges - Headlamp: 14 Recharges - Tablet: 2 Recharges - USB-C Laptops: Up to 1 Recharge

Add solar input to extend your charging options, and do more.

NOTE: This is NOT like your typical USB battery banks. The Venture 75, like all batteries designed to work with solar (if/when needed), it will accept charge at the same time it delivers charge. This "pass-through" charging capability is the mark of a superior battery bank, and a feature that distinguishes great batteries from ordinary.
