Product Summary

CleanWaste's Poo Powder® is a proprietary waste treatment powder that gels and solidifies liquid waste to a solid, preventing spills and splashbacks and contact with waste. **Made in the USA.**

Product Description

CleanWaste's Poo Powder waste treatment encapsulates solid waste for easier and

more sanitary transport to disposal. It also controls odors and contains a decay catalyst with natural enzymes to break down solid waste. Poo Powder® is pre-loaded in each of our toilet kits to successfully treat 24-32 oz of waste. More CleanWaste powder can be added to extend the number of uses of a GO anywhere toilet kit® or for use with your own bags.

One scoop of waste treatment powder gels 21 ounces of liquid waste, which provides multiple uses if necessary. CleanWaste Poo Powder® must be activated by a liquid to begin the encapsulation process. It is non-toxic and does not contain harmful chemicals, and is biodegradable and environmentally-friendly.

Each Canister of Waste Treatment Includes...

- Convenient pre-measured plastic scoop.
- Waste treatment powder.

Specifications...

- Each scoop gels and solidifies 21 oz. of liquid and solid waste.
 - Good for multiple uses.
