Product Summary

For Ironridge XR-10 Rails, the XR10 rail splice BOSS (Bonded Structural Splice) provides a completely seamless, secret attachment. No assembly, tools, or hardware required. The built-in bonding spring has teeth that bite into rail, creating a connection that meets all UL standards.

Product Description

For Ironridge XR-10 Rails, the XR10 rail splice BOSS (Bonded Structural Splice) provides a completely seamless, secret attachment. No assembly, tools, or hardware required. The built-in bonding spring has teeth that bite into rail, creating a connection that meets all UL standards.

The BOSS™ eliminates restrictions around splice locations. Place it anywhere along the span (except the outside cantilever). Available now, so you can continue to conquer your solar projects!

XR10 Rail Splice Details

- BOSS Splice for XR10 rails - Part# XR10-BOSS-01-M1

NOTE: We may still have a few of the original XR10 splices with self-drilling screws available. See the order form.
