### Product Summary

The Yeti 1500X Lithium Power Pack by Goal Zero. The most popular of the Yeti-X series, and an upgrade to the extremely successful Yeti 1400 model. With AC inverter, lightweight lithium storage battery, and all the USB ports for your personal electronics, this is a great portable all-in-one power solution for your van, cabin, or mobile off-grid adventures. Can back-up a fridge for up to 18 hours.

**FAST, FREE UPS SHIPPING ACROSS CANADA**

SKU: 36300

## Product Description

The Yeti 1500X Lithium Power Pack by Goal Zero. The most popular of the Yeti-X series, and an upgrade to the extremely successful Yeti 1400 model. With AC inverter, lightweight lithium storage battery, and all the USB ports for your personal electronics, this is a great portable all-in-one power solution for your van, cabin, or mobile off-grid adventures. Can back-up a fridge for up to 18 hours.

What's In The Yeti 1500X?

### **Input Boost**

The solar input port now has an internal MPPT charge controller. No more needing to buy the 14004 MPPT module! MPPT is an algorithm that constantly adapts solar input voltage to battery voltage so that charging current can be optimized. The result is up to 40% faster solar charging.

There is also a new AC wall charger available, with more power for faster charging

### **Output Boost**

The built-in pure sinewave inverter is now a cool 2000 Watts on this Yeti 1500X model. With 3,500W of surge, it can handle most power tools & kitchen appliances. USB-C and USB-C PD (Power Delivery) ports are here. Now you can directly charge the latest phones, laptops, and tablets that use this USB-C standard without needing an AC adaptor or 12V car adaptor.

The 12V output port is now regulated - that 98078 regulator cable is now built-in. This solves the problem that many users had with the slightly lower native lithium battery voltage fooling appliances like coolers & fridges into thinking the battery was low and turning themselves off.

The 12V output has also received a 50% power boost (1500X, 3000X, 6000X models only).

Anderson Power Pole port is also now regulated to 12V. Very handy for integrating the Yeti 1500X into 12V cabin, boat, van conversion, or RV wiring.

Yeti 1500X Specifications...

### **INPUTS:**

8 mm Charging Port: 14-22V, up to 10A (120W max)

Power Pole Charging Port: 14-50V, up to 50A (600W max)

USB-C PD: 1 at 60W max

### **OUTPUTS:**

USB-A Ports:

- 5V, up to 2.4A (12W max), regulated

- USB-C PD Port: 1 at 18W max(QC 3.0), 1 at 60W max

6 mm Port: 12V, up to 10A (120W max)

12V Car Port: 12V, up to 10A (120W max)

12V Power Pole Port: regulated 12V, up to 30A (360W max)

120V AC Inverter: 120V AC 60Hz, 16.6A (2000W, 3500W surge) (output, pure sine wave)

### **GENERAL:**

Weight: 43 lbs (19.5 kg)

Dimensions: 10.1 x 15.3 x 10.4 in (25.7 x 38.9 x 26.4 cm)

### **BATTERY:**

Cell Chemistry: Li-ion NMC

Pack Capacity: 1516Wh (10.8V, 140.3Ah)

Compare to the discontinued Yeti 1400 standard model description [here](#)

What Solar Panels To Use...

You'll be frustrated with slow charging rates if you use anything smaller than 100W
