Product Summary

The ZeroWatt PowerLine 5 is the right way to charge AA, AAA, C, D, & 9V cells from alternative energy power systems. The simple reason is that the charger shuts itself off after completing your charge. No more secret power drain from trickle charging.

Product Description

- Intelligent charger with LC display and ZeroWatt technology
- No standby power consumption
- Automatically disconnects itself from mains power once the batteries are fully charged
- Charger for 1-4 NiMH / NiCd AAA, AA, C or D cells in addition to 1 9V E block
- Microprocessor controlled charging and monitoring of the round cell charging status
- Time controlled trickle charging of the 9V battery
- Individual supervision of each battery
- Battery status is displayed by LED and LCD (for round cell charging) per charging slot
- Reverse polarity protection
- Overcharging protection
- Trickle charging for min. 1h before charger disconnects itself from mains power
- Faulty cell detection/Alkaline detection for round cells
- Wide range input 100-240V AC for world wide use
- Charging currents: AAA 500mA / AA, C, D 1000mA / 9V E block 15mA - 3 years warranty

Product Attributes

- Dimensions: N/A
- Weight: 1.4 kg
